This Quarterly Report on Form 10-Q is for the three and six months ended June 30, 2010. This Quarterly Report modifies and supersedes documents filed prior to this Quarterly Report. The Securities and Exchange Commission ("SEC") allows us to "incorporate by reference" information that we file with it, which means that we can disclose important information to you by referring you directly to those documents. Information incorporated by reference is considered to be part of this Quarterly Report. In addition, information that we file with the SEC in the future will automatically update and supersede information contained in this Quarterly Report. Throughout this Quarterly Report, we refer to Comcast Corporation as "Comcast," Comcast and its consolidated subsidiaries as "we," "us" and "our;" and Comcast Holdings Corporation as "Comcast Holdings."

You should carefully review the information contained in this Quarterly Report and particularly consider any risk factors that we set forth in this Quarterly Report and in other reports or documents that we file from time to time with the SEC. In this Quarterly Report, we state our beliefs of future events and of our future financial performance. In some cases, you can identify these so-called "forward-looking statements" by words such as "may," "will," "should," "expects," "believes," "estimates," "potential," or "continue," or the negative of those words, and other comparable words. You should be aware that those statements are only our predictions. In evaluating those statements, you should specifically consider various factors, including the risks outlined below and in other reports we file with the SEC. Actual events or our actual results may differ materially from any of our forward-looking statements. We undertake no obligation to update any forward-looking statements.

Our businesses may be affected by, among other things, the following:

- our cable services face a wide range of competition that could adversely affect our future results of operations
- technological advances have increased and will likely continue to increase competition for our cable services, which could adversely affect our future results of operations
- programming expenses are increasing, which could adversely affect our future results of operations
- we are subject to regulation by federal, state and local governments, which may impose additional costs and restrictions
- weak economic conditions may have a negative impact on our results of operations and financial condition
- we rely on network and information systems and other technology, and a disruption or failure of such networks, systems or technology may disrupt our business
- we may be unable to obtain necessary hardware, software and operational support
- our business depends on certain intellectual property rights and on not infringing the intellectual property rights of others
- we face risks arising from the outcome of various litigation matters
- acquisitions and other strategic transactions present many risks, and we may not realize the financial and strategic goals that were contemplated at the time of any transaction
- the loss of key management personnel could have a negative impact on our business
- our Class B common stock has substantial voting rights and separate approval rights over several potentially material transactions, and our Chairman and CEO has considerable influence over our operations through his beneficial ownership of our Class B common stock

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1: Condensed Consolidated Financial Statements

Basis of Presentation

We have prepared these unaudited condensed consolidated financial statements based on Securities and Exchange Commission (“SEC”) rules that permit reduced disclosure for interim periods. These financial statements include all adjustments that are necessary for a fair presentation of our results of operations and financial condition for the periods shown, including normal, recurring accruals and other items. We also evaluated events or transactions that occurred after the balance sheet date through the issuance date of these financial statements to determine if financial statement recognition or additional disclosure is required. The results of operations for the interim periods presented are not necessarily indicative of results for the full year.

The year-end condensed consolidated balance sheet was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles in the United States (“GAAP”). For a more complete discussion of our accounting policies and certain other information, refer to our annual financial statements for the preceding fiscal year as filed with the SEC.

Reclassifications have been made to the prior year’s condensed consolidated financial statements between revenue and operating expenses to conform to classifications used in 2010.

Note 2: Recent Accounting Guidance

Consolidation of Variable Interest Entities

In June 2009, the Financial Accounting Standards Board (“FASB”) updated the accounting guidance related to the consolidation of variable interest entities (“VIEs”). The updated guidance (i) requires ongoing reassessments of whether an enterprise is the primary beneficiary of a VIE, (ii) changes the quantitative approach previously required for determining the primary beneficiary of a VIE and replaces it with a qualitative approach, and (iii) requires additional disclosure about an enterprise’s involvement in VIEs. We adopted the updated guidance on January 1, 2010 and it did not impact our consolidated financial statements.

Note 3: Earnings Per Share

Basic earnings per common share attributable to Comcast Corporation shareholders (“basic EPS”) is computed by dividing net income attributable to Comcast Corporation by the weighted-average number of common shares outstanding during the period.

Our potentially dilutive securities include potential common shares related to our stock options and our restricted share units (“RSUs”). Diluted earnings per common share attributable to Comcast Corporation shareholders (“diluted EPS”) considers the impact of potentially dilutive securities using the treasury stock method, except in periods in which there is a loss, because the inclusion of the potential common shares would have an antidilutive effect. Diluted EPS excludes the impact of potential common shares related to our stock options in periods in which the option exercise price is greater than the average market price of our Class A common stock or our Class A Special common stock, as applicable.

Diluted EPS for the three and six months ended June 30, 2010 excludes approximately 195 million and 194 million, respectively, of potential common shares related to our share-based compensation plans, because the inclusion of the potential common shares would have had an antidilutive effect. For the three and six months ended June 30, 2009, diluted EPS excludes approximately 204 million and 196 million, respectively, of potential common shares.

Note 4: Acquisitions and Other Significant Events

NBC Universal Transaction

We entered into agreements with General Electric Company (“GE”) in December 2009 to form a new company of which we will own 51% and control, with the remaining 49% to be owned by GE. Under the terms of the transaction, GE will contribute NBC Universal’s businesses, including its cable and broadcast networks, filmed entertainment, televised entertainment, theme parks and unconsolidated investments, as well as other GE assets used primarily in NBC Universal’s business. NBC Universal borrowed \$4 billion in April 2010 from third party lenders and plans to borrow an additional \$5.1 billion from third party lenders prior to closing. We will contribute our national programming networks, our regional sports networks and certain of our Internet businesses, as well as other assets used primarily in those businesses, collectively valued at approximately \$7.25 billion. We will also make a cash payment to GE of \$7.1 billion less certain adjustments primarily based on the free cash flow generated by NBC Universal between December 4, 2009 and the closing. The transaction is subject to various regulatory approvals and is expected to close by the end of 2010.

GE will be entitled to cause the new company to redeem half of GE’s interest 3.5 years after the closing and its remaining interest 7 years after the closing. If GE exercises its first redemption right, we have the right to purchase the remainder of GE’s interest. If GE does not exercise its first redemption right, we have the right to purchase half of GE’s interest 5 years after the closing. We also will have the right to purchase GE’s remaining interest, if any, 8 years after the closing. The redemption and purchase price will equal the ownership percentage being acquired multiplied by 120% of the fully distributed public market trading value of the new company, less half of the excess of 120% of that value over \$28.15 billion. Subject to various limitations, we are committed to fund up to \$2.875 billion in cash or common stock for each of the two redemptions (for an aggregate of up to \$5.75 billion), with amounts not used in the first redemption to be available for the second redemption.

[Table of Contents](#)

The results of operations for the new company will be consolidated with our results of operations, as we will control the new company. When the transaction is completed, the NBC Universal businesses will be recorded at their fair value and the businesses we contribute will be recorded at their historical or carry-over basis. GE's interest will be recorded as a redeemable noncontrolling interest in our consolidated financial statements.

Other

During the six months ended June 30, 2010, we acquired CIMCO Communications, Inc. ("CIMCO"), a phone and high-speed Internet service provider for businesses, Paciolan, Inc. ("Paciolan"), a developer of automated ticketing software, New Global Telecom, Inc. ("NGT"), a phone service provider for small to medium-sized businesses, and made other smaller acquisitions. The aggregate purchase price of all of these acquisitions was approximately \$195 million. The results of operations for CIMCO and NGT are reported in our Cable segment. The results of operations for Paciolan are reported in Corporate and Other. The results of operations for these acquisitions have been included in our consolidated results of operations since their respective acquisition dates and were not material to our consolidated financial statements.

(a) The December 31, 2009 Cable segment and Corporate and Other amounts have been adjusted for segment reclassifications to be consistent with our 2010 management reporting presentation.

Note 7: Long-Term Debt

In March 2010, we issued \$1.4 billion principal amount of 5.15% notes due 2020 and \$1.0 billion principal amount of 6.4% notes due 2040. The net proceeds of these issuances will be used for working capital and general corporate purposes, which may include the repayment of debt at its maturity and funding a portion of our payment to GE due upon closing of the NBC Universal transaction.

Note 8: Fair Value Measurements and Derivative Financial Instruments

We use derivative financial instruments to manage our exposure to the risks associated with fluctuations in interest rates and equity prices. Our objective is to manage the financial and operational exposure arising from these risks by offsetting gains and losses on the underlying exposures with gains and losses on the derivatives used to economically hedge them. Derivative financial instruments that receive designated hedge accounting treatment are evaluated for effectiveness at the time they are designated, as well as throughout the hedging period. We do not engage in any speculative or leveraged derivative transactions. All derivative transactions must comply with a derivatives policy authorized by our Board of Directors.

We manage the credit risks associated with our derivative financial instruments through the evaluation and monitoring of the creditworthiness of the counterparties. Although we may be exposed to losses in the event of nonperformance by the counterparties, we do not expect such losses, if any, to be significant.

We manage our exposure to and benefits from price fluctuations in the common stock of some of our investments by using equity derivative financial instruments embedded in other contracts, such as prepaid forward sale agreements, whose values, in part, are derived from the market value of certain publicly traded common stock.

We periodically examine the instruments we use to hedge exposure to interest rate and equity price risks to ensure that the instruments are matched with underlying assets or liabilities, to reduce our risks relating to changes in interest rates or equity prices and, through market value and sensitivity analysis, to maintain a high correlation to the risk inherent in the hedged item. For those instruments that do not meet the above conditions, and for those derivative financial instruments that are not designated as a hedge, changes in fair value are recognized on a current basis in earnings.

As of June 30, 2010, our derivative financial instruments designated as hedges included (i) the derivative component of one of our prepaid forward sale agreements, which is recorded to other noncurrent liabilities, (ii) our interest rate swap agreements, which are recorded to other current or noncurrent assets or liabilities, and (iii) our interest rate collars, which are recorded to other current liabilities. Changes in the fair value of the derivative component of our prepaid forward sale agreements are recorded to investment income (loss), net. Changes in the fair value of our interest rate swap agreements are recorded to interest expense. These amounts are completely offset by changes in the fair value of the related debt because the swaps are deemed to be 100% effective. The difference between variable and fixed rates to be paid or received under the terms of the interest rate swap agreements is accrued as interest rates change and recognized as an adjustment to interest expense for the related debt. The effective portion of changes in the fair value of our interest rate collars is recorded to accumulated other comprehensive income (loss). The ineffective portion, if any, of changes in the fair value of our interest rate collars is recorded to investment income (loss), net.

As of June 30, 2010, our derivative financial instruments not designated as hedges included (i) the derivative component of our indexed debt instruments (our ZONES debt), which is recorded to long-term debt, and (ii) the derivative component of certain of our prepaid forward sale agreements, which is recorded to other noncurrent liabilities.

As of June 30, 2010, our debt had an estimated fair value of \$34.029 billion. The estimated fair value of our publicly traded debt is based on quoted market values for the debt. To estimate the fair value of debt for which there are no quoted market prices, we use interest rates available to us for debt with similar terms and remaining maturities.

The difference between variable and fixed rates received under the terms of our interest rate swap agreements reduced interest expense by approximately \$33 million and \$65 million during the three and six months ended June 30, 2010, respectively. These amounts during the three and six months ended June 30, 2009 were approximately \$25 million and \$48 million, respectively.

Note 9: Noncontrolling Interests

Certain of our subsidiaries that we consolidate are not wholly owned. Some of the agreements with the minority partners of these subsidiaries contain redemption features whereby interests held by the minority partners are redeemable either (i) at the option of the holder or (ii) upon the occurrence of an event that is not solely within our control. If interests were to be redeemed under these agreements, we would generally be required to purchase the interest at fair value on the date of redemption. These interests are presented on the balance sheet outside of

equity under the caption “Redeemable noncontrolling interests.” Noncontrolling interests that do not contain such redemption features are presented in equity.

During the six months ended June 30, 2010, we acquired all of the noncontrolling interest of one of our technology ventures, which had a carrying value of approximately \$20 million, for approximately \$9 million. The difference between the amount paid and the carrying value of the noncontrolling interest resulted in an increase of approximately \$11 million to additional paid-in capital of Comcast Corporation.

The table below presents the changes in equity resulting from net income attributable to Comcast Corporation and transfers to or from noncontrolling interests.

Share-Based Compensation

Our Board of Directors may grant share-based awards, in the form of stock options and RSUs, to certain employees and directors. Additionally, through our employee stock purchase plan, employees are able to purchase shares of Comcast Class A common stock at a discount through payroll deductions.

In March 2010, we granted 30.9 million stock options and 8.4 million RSUs related to our annual management grant program. The fair values associated with these grants were \$5.11 per stock option and \$16.87 per RSU.

The employee cost associated with participation in the employee stock purchase plan was satisfied with payroll deductions of approximately \$11 million and \$26 million for the three and six months ended June 30, 2010, respectively. For the three and six months ended June 30, 2009, the employee cost was \$10 million and \$27 million, respectively.

- acquired approximately \$421 million of property and equipment and software that was accrued but unpaid, which is a noncash investing activity

Note 12: Commitments and Contingencies

Commitments

One of our subsidiaries supports debt compliance with respect to obligations of a cable system in which we hold an ownership interest, which expires March 2011. Although there can be no assurance, we believe that this cable system will be able to support its debt compliance requirements on its own and that we will not be required to fund our obligation under this commitment. The total notional amount of our commitment was \$410 million as of June 30, 2010, at which time there were no quoted market prices for similar agreements.

Contingencies

Antitrust Cases

We are defendants in two purported class actions originally filed in December 2003 in the United States District Courts for the District of Massachusetts and the Eastern District of Pennsylvania. The potential class in the Massachusetts case, which has been transferred to the Eastern District of Pennsylvania, is our customer base in the “Boston Cluster” area, and the potential class in the Pennsylvania case is our customer base in the “Philadelphia and Chicago Clusters,” as those terms are defined in the complaints. In each case, the plaintiffs allege that certain customer exchange transactions with other cable providers resulted in unlawful horizontal market restraints in those areas and seek damages under antitrust statutes, including treble damages.

Classes of Philadelphia Cluster and Chicago Cluster customers were certified in May 2007 and October 2007, respectively. In March 2009, as a result of a Third Circuit Court of Appeals decision clarifying the standards for class certification, the order certifying the Philadelphia Cluster class was vacated without prejudice to the plaintiffs filing a new motion. In January 2010, in its decision on the plaintiffs’ new motion, the Eastern District of Pennsylvania certified a class subject to certain limitations. In June 2010, the Third Circuit Court of Appeals granted our petition for an interlocutory appeal from the class certification decision. In March 2010, we moved for summary judgment dismissing all of the plaintiffs’ claims in the Philadelphia Cluster; the summary judgment motion is stayed pending the class certification appeal. The plaintiffs’ claims concerning the other two clusters are stayed pending determination of the Philadelphia Cluster claims.

We also are among the defendants in a purported class action filed in the United States District Court for the Central District of California in September 2007. The potential class is comprised of all persons residing in the United States who have subscribed to an expanded basic level of video service provided by one of the defendants. The plaintiffs allege that the defendants who produce video programming have entered into agreements with the defendants who distribute video programming via cable and satellite (including us), which preclude the distributor defendants from reselling channels to customers on an “unbundled” basis in violation of federal antitrust laws. The plaintiffs seek treble damages and injunctive relief requiring each distributor defendant to resell certain channels to its customers on an “unbundled” basis. In October 2009, the Central District of California issued an order dismissing the plaintiffs’ complaint with prejudice. The plaintiffs have appealed that order to the Ninth Circuit Court of Appeals.

In addition, we are the defendant in twenty-two purported class actions filed in federal district courts throughout the country. All of these actions have been consolidated by the Judicial Panel on Multidistrict Litigation in the United States District Court for the Eastern District of Pennsylvania for pre-trial proceedings. In a consolidated complaint filed in November 2009 on behalf of all plaintiffs in the multi-district litigation, the plaintiffs allege that we improperly “tie” the rental of set-top boxes to the provision of premium cable services in violation of Section 1 of the Sherman Antitrust Act, various state antitrust laws and unfair/deceptive trade practices acts in California, Illinois and Alabama. The plaintiffs also allege a claim for unjust enrichment and seek relief on behalf of a nationwide class of our premium cable customers and on behalf of subclasses consisting of premium cable customers from California, Alabama, Illinois, Pennsylvania and Washington. In January 2010, we moved to compel arbitration of the plaintiffs’ claims for unjust enrichment and violations of the unfair/deceptive trade practices acts of Illinois and Alabama.

The West Virginia Attorney General also filed a complaint in West Virginia state court in July 2009 alleging that we improperly “tie” the rental of set-top boxes to the provision of premium cable services in violation of the West Virginia Antitrust Act and the West Virginia Consumer Credit and Protection Act. The Attorney General also alleges a claim for unjust enrichment/restitution. We removed the case to the United States District Court for West Virginia, and it was subsequently transferred to the United States District Court for the Eastern District of Pennsylvania and consolidated with the multi-district litigation described above. In March 2010, the Eastern District of Pennsylvania denied the Attorney General’s motion to remand the case back to West Virginia state court. In June 2010, the Attorney General moved to sever and remand the portion of his claims seeking civil penalties and injunctive relief back to West Virginia state court. We filed a brief in opposition to the motion in July 2010.

ERISA Litigation

We and several of our current officers have been named as defendants in a purported class action lawsuit filed in the United States District Court for the Eastern District of Pennsylvania in February 2008. The potential class comprises participants in our retirement investment (401(k)) plan that invested in the plan's company stock account. The plaintiffs assert that the defendants breached their fiduciary duties under the Employee Retirement Income Security Act of 1974 (ERISA) in managing the plan by allowing participants to continue to invest in the company stock account during a time in 2007 when we allegedly knew (but had not disclosed) that we would not meet our forecasted results. In July 2010, the parties agreed to settle this action with a payment by us of \$5 million and our agreement to take certain action with respect to the administration of the plans.

Other

We are a defendant in several unrelated lawsuits claiming infringement of various patents relating to various aspects of our businesses. In certain of these cases other industry participants are also defendants, and also in certain of these cases we expect that any potential liability would be in part or in whole the responsibility of our equipment and technology vendors under applicable contractual indemnification provisions. We are also subject to other legal proceedings and claims that arise in the ordinary course of our business. While the amount of ultimate liability with respect to such actions is not expected to materially affect our financial position, results of operations or cash flows, any litigation resulting from any such legal proceedings or claims could be time consuming, costly and injure our reputation.

* * *

We believe the claims in each of the actions described above in this item are without merit and intend to defend the actions vigorously. Although we cannot predict the outcome of any of the actions described above or how the final resolution of any such actions would impact our results of operations or cash flows for any one period or our consolidated financial condition, the final disposition of any of the above actions is not expected to have a material adverse effect on our consolidated financial position, but could possibly be material to our consolidated results of operations or cash flows for any one period.

Note 13: Financial Data by Business Segment

Our reportable segments consist of our Cable and Programming businesses. In evaluating the profitability of our segments, the components of net income (loss) below operating income (loss) before depreciation and amortization are not separately evaluated by our management. Assets are not allocated to segments for management reporting, although over 95% of our assets relate to the Cable segment. Our financial data by business segment is presented in the table below.

Table of Contents

- (d) Corporate and Other activities include Comcast Interactive Media, Comcast Spectacor, a portion of operating results of our less than wholly owned technology development ventures (see “(e)” below), corporate activities and all other businesses not presented in our Cable or Programming segments.
- (e) We consolidate our less than wholly owned technology development ventures that we control or of which we are considered the primary beneficiary. These ventures are with Motorola. The ventures have been created to share the costs of development of new technologies for set-top boxes and other devices. The results of these entities are included within Corporate and Other except for cost allocations, which are made to the Cable segment based on our percentage ownership in each entity.
- (f) Included in the Eliminations column are transactions that our segments enter into with one another. The most common types of transactions are the following:
- our Programming segment generates revenue by selling cable network programming to our Cable segment, which represents a substantial majority of the revenue elimination amount
 - our Cable segment receives incentives offered by our Programming segment when negotiating programming contracts that are recorded as a reduction to programming expenses
 - our Cable segment generates revenue by selling advertising and by selling the use of satellite feeds to our Programming segment
 - our Cable segment generates revenue by providing network services to Comcast Interactive Media
- (g) Non-U.S. revenue was not significant in any period. No single customer accounted for a significant amount of our revenue in any period.
- (h) To measure the performance of our operating segments, we use operating income (loss) before depreciation and amortization, excluding impairments related to fixed and intangible assets, and gains or losses from the sale of assets, if any. This measure eliminates the significant level of noncash depreciation and amortization expense that results from the capital-intensive nature of our businesses and from intangible assets recognized in business combinations. It is also unaffected by our capital structure or investment activities. We use this measure to evaluate our consolidated operating performance, the operating performance of our operating segments, and to allocate resources and capital to our operating segments. It is also a significant performance measure in our annual incentive compensation programs. We believe that this measure is useful to investors because it is one of the bases for comparing our operating performance with other companies in our industries, although our measure may not be directly comparable to similar measures used by other companies. This measure should not be considered a substitute for operating income (loss), net income (loss) attributable to Comcast Corporation, net cash provided by operating activities, or other measures of performance or liquidity reported in accordance with GAAP.
- (i) The 2009 Cable segment and Corporate and Other amounts have been adjusted for segment reclassifications to be consistent with our 2010 management reporting presentation. The adjustments resulted in the reclassification of revenue, operating income (loss) before depreciation and amortization, depreciation and amortization, and operating income from Corporate and Other to our Cable segment for the amounts presented below.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a leading provider of video, high-speed Internet and phone services ("cable services"), offering a variety of entertainment, information and communications services to residential and commercial customers. As of June 30, 2010, our cable systems served approximately 23.2 million video customers, 16.4 million high-speed Internet customers and 8.1 million phone customers and passed over 51 million homes and businesses in 39 states and the District of Columbia. We report the results of these operations as our Cable segment, which generates approximately 94% of our consolidated revenue. Our Cable segment also includes the operations of our regional sports networks. Our Programming segment consists primarily of our consolidated national programming networks, E!, Golf Channel, VERSUS, G4 and Style. Revenue from our Programming segment is generated primarily from monthly per subscriber license fees paid by multichannel video providers, the sale of advertising and the licensing of our programming internationally.

The following are the more significant developments in our businesses during the six months ended June 30, 2010:

- an increase in consolidated revenue of 4.9% to \$18.7 billion and an increase in consolidated operating income of 8.9% to \$4.0 billion
- an increase in Cable segment revenue of 4.3% to \$17.6 billion and an increase in operating income before depreciation and amortization of 4.9% to \$7.2 billion
- an increase in Programming segment revenue of 12.6% to \$839 million and an increase in operating income before depreciation and amortization of 21.5% to \$273 million
- the addition of 517,000 high-speed Internet customers and 503,000 phone customers; a decrease of 347,000 video customers
- a reduction in Cable segment capital expenditures of 9.2% to \$2.0 billion
- the repurchase of 36.4 million shares of our Class A Special common stock under our share repurchase authorization for \$600 million
- the payment of \$535 million in dividends
- the issuance of approximately \$2.4 billion aggregate principal amount of notes

NBC Universal Transaction

We entered into agreements with General Electric Company ("GE") in December 2009 to form a new company of which we will own 51% and control, with the remaining 49% to be owned by GE. Under the terms of the transaction, GE will contribute NBC Universal's businesses, including its cable and broadcast networks, filmed entertainment, televised entertainment, theme parks and unconsolidated investments, as well as other GE assets used primarily in NBC Universal's business. NBC Universal borrowed \$4 billion in April 2010 from third party lenders ("bond offering") and plans to borrow an additional \$5.1 billion from third party lenders prior to the closing of the transaction. We will contribute our national programming networks, our regional sports networks and certain of our Internet businesses, as well as other assets used primarily in those businesses, collectively valued at approximately \$7.25 billion, and make a cash payment to GE of \$7.1 billion, less certain adjustments primarily based on the free cash flow generated by NBC Universal between December 4, 2009 and the closing. The transaction is subject to various regulatory approvals and is expected to close by the end of 2010.

GE will be entitled to cause the new company to redeem half of GE's interest 3.5 years after the closing and its remaining interest 7 years after the closing. If GE exercises its first redemption right, we have the right to purchase the remainder of GE's interest. If GE does not exercise its first redemption right, we have the right to purchase half of GE's interest 5 years after the closing. We also will have the right to purchase GE's remaining interest, if any, 8 years after the closing. The redemption and purchase price will equal the ownership percentage being acquired multiplied by 120% of the fully distributed public market trading value of the new company, less half of the excess

of 120% of that value over \$28.15 billion. Subject to various limitations, we are committed to fund up to \$2.875 billion in cash or common stock for each of the two redemptions (for an aggregate of up to \$5.75 billion), with amounts not used in the first redemption to be available for the second redemption.

We have incurred expenses related to legal, accounting and valuation services of \$22 million and \$36 million for the three and six months ended June 30, 2010, respectively, which are reflected in operating, selling, general and administrative expenses. We also incurred certain financing and other shared costs with GE associated with NBC Universal's debt facilities entered into at the December 2009 agreement date and with NBC Universal's April 2010 bond offering of \$37 million and \$52 million for the three and six months ended June 30, 2010, respectively, which are reflected in other income (expense) and interest expense.

Consolidated Revenue

Our Cable and Programming segments accounted for substantially all of the increases in consolidated revenue for the three and six months ended June 30, 2010 compared to the same periods in 2009. The remaining changes related to our other business activities, primarily Comcast Interactive Media and Comcast Spectacor. Cable segment revenue and Programming segment revenue are discussed separately in "Segment Operating Results."

Consolidated Operating, Selling, General and Administrative Expenses

Our Cable and Programming segments accounted for substantially all of the increases in consolidated operating, selling, general and administrative expenses for the three and six months ended June 30, 2010 compared to the same periods in 2009. The remaining changes related to our other business activities, primarily Comcast Interactive Media and Comcast Spectacor, and costs associated with the NBC Universal transaction of \$22 million and \$36 million for the three and six months ended June 30, 2010, respectively. Cable segment and Programming segment operating, selling, general and administrative expenses are discussed separately in "Segment Operating Results."

Consolidated Depreciation and Amortization

Depreciation expense and amortization expense remained relatively stable for three and six months ended June 30, 2010 compared to the same periods in 2009.

Segment Operating Results

Our segment operating results are presented based on how we assess operating performance and internally report financial information. To measure the performance of our operating segments, we use operating income (loss) before depreciation and amortization, excluding impairments related to fixed and intangible assets, and gains or losses from the sale of assets, if any. This measure eliminates the significant level of noncash depreciation and amortization expense that results from the capital-intensive nature of our businesses and from intangible assets recognized in business combinations. Additionally, it is unaffected by our capital structure or investment activities. We use this measure to evaluate our consolidated operating performance and the operating performance of our operating segments and to allocate resources and capital to our operating segments. It is also a significant performance measure in our annual incentive compensation programs. We believe that this measure is useful to investors because it is one of the bases for comparing our operating performance with that of other companies in our industries, although our measure may not be directly comparable to similar measures used by other companies. Because we use this metric to measure our segment profit or loss, we reconcile it to operating income (loss), the most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States (“GAAP”) in the business segment footnote to our condensed consolidated financial statements (see Note 13 to our condensed consolidated financial statements). This measure should not be considered a substitute for operating income (loss), net income (loss) attributable to Comcast Corporation, net cash provided by operating activities, or other measures of performance or liquidity we have reported in accordance with GAAP.

Cable Segment Revenue

Video

Video revenue remained relatively consistent for the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to revenue growth from rate adjustments and customer upgrades to our digital and advanced services which was offset by declines in video customers. During the three and six months ended June 30, 2010, the number of video customers decreased by approximately 265,000 and 347,000, respectively. During the three and six months ended June 30, 2010, we added or upgraded approximately 394,000 and 821,000 customers to our digital video service, respectively, including those customers added or upgraded in connection with the transition from analog to digital transmission of channels we distribute. As of June 30, 2010, approximately 83% of our 23.2 million video customers subscribed to at least one of our digital video services. Our average monthly video revenue per video customer increased to approximately \$70 as of June 30, 2010 from approximately \$68 as of June 30, 2009.

High-Speed Internet

Our high-speed Internet revenue increased during the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to an increase in the number of residential and commercial customers. During the three and six months ended June 30, 2010, we added approximately 118,000 and 517,000 high-speed Internet customers, respectively. Our average monthly revenue per high-speed Internet customer increased to approximately \$43 as of June 30, 2010 from approximately \$42 as of June 30, 2009.

Phone

Our phone revenue increased during the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to an increase in the number of residential and commercial phone customers. During the three and six months ended June 30, 2010, we added approximately 230,000 and 503,000 phone customers, respectively. Average monthly revenue per phone customer declined to approximately \$38 as of June 30, 2010 from approximately \$39 as of June 30, 2009, due to customers receiving service as part of a promotional offer or in a bundled service offering.

As previously disclosed, we expect further declines in the number of video customers during the second half of 2010. In addition, during June and July our video, high-speed Internet and phone customer results were weaker than expected due to the expiration of promotions from the time of the country's digital transition last year and the continuing impact of competition and a weaker economic environment. We are taking steps to address customer results during the remainder of the third quarter and year.

Advertising

Advertising revenue increased during the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to improvements in the overall television advertising market.

Other

We also generate revenue from our regional sports networks, our digital media center, commissions from electronic retailing networks and fees for other services.

Franchise Fees

The increases in franchise fees collected from our cable customers during the three and six months ended June 30, 2010 compared to the same periods in 2009 were primarily due to increases in the revenue on which the fees apply.

Technical labor expenses decreased during the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to decreases in customer activity levels and operational efficiencies.

High-speed Internet expenses and phone expenses include certain direct costs for providing these services but do not fully reflect the amount of operating expenses that would be necessary to provide these services on a stand-alone basis. Other related costs associated with providing these services are generally shared among all our cable services and are not allocated to these items. Other operating expenses increased during the three and six months ended June 30, 2010 compared to the same periods in 2009 primarily due to an increase in advertising activity, the continued expansion of commercial services and other service enhancement initiatives.

For the three and six months ended June 30, 2010, approximately 11% and 12%, respectively, of our Programming revenue was generated from our Cable segment. For both the three and six months ended June 30, 2009, approximately 12% of our Programming revenue was generated from our Cable segment. Interest Expense

The decrease in interest expense for the six months ended June 30, 2010 compared to the same period in 2009 was due to the decrease in our average debt outstanding and decreases in interest rates on debt subject to variable interest rate swap agreements.

Investment Income (Loss), Net

The components of investment income (loss), net for the three and six months ended June 30, 2010 and 2009 are presented in a table in Note 5 to our condensed consolidated financial statements.

Other Income (Expense)

In connection with the NBC Universal transaction, we agreed to share with GE certain financing and other costs associated with NBC Universal's debt facilities entered into at the December 2009 agreement date and with NBC Universal's April 2010 bond offering. Other income (expense) for the three and six months ended June 30, 2010 includes expenses for our share of these costs of \$35 million and \$48 million, respectively.

Income Tax Expense

Income tax expense for the three and six months ended June 30, 2010 and 2009 reflects an effective income tax rate that differs from the federal statutory rate primarily due to state income taxes and interest on uncertain tax positions. Income tax expense for the three and six months ended June 30, 2009 was reduced by approximately \$137 million and \$185 million, respectively, primarily due to the favorable settlements of uncertain tax positions and related interest. We expect our 2010 annual effective tax rate to be approximately 40%.

Liquidity and Capital Resources

Our businesses generate significant cash flows from operating activities. We believe that we will be able to meet our current and long-term liquidity and capital requirements, including fixed charges, through our cash flows from operating activities, existing cash, cash equivalents and investments, available borrowings under our existing credit facilities, and our ability to obtain future external financing.

We anticipate that we will continue to use a substantial portion of our cash flows to fund our capital expenditures, to invest in business opportunities, to meet our debt repayment obligations and to return capital to shareholders.

Net cash provided by operating activities	\$ 5,332	\$ 5,113

The decrease in interest payments during the six months ended June 30, 2010 compared to the same period in 2009 was primarily due to the effects of our debt repayments and decreases in interest rates on debt subject to variable interest rate swap agreements.

The increase in income tax payments during the six months ended June 30, 2010 compared to the same period in 2009 was primarily due to higher 2010 taxable income and the reversal of the benefits from the 2008 and 2009 economic stimulus acts.

Investing Activities

Net cash used in investing activities for the six months ended June 30, 2010 consisted primarily of capital expenditures of \$2.1 billion, cash paid for intangible assets of \$237 million and acquisitions of \$183 million. Capital expenditures have been our most significant recurring investing activity and we expect that this will continue in the future.

Financing Activities

Net cash provided by financing activities for the six months ended June 30, 2010 consisted primarily of proceeds from borrowings of \$2.4 billion, partially offset by debt repurchases and repayments of \$638 million, repurchases of our Class A Special common stock of \$600 million and dividend payments of \$ 535 million.

We have made, and may from time to time in the future make, optional repayments on our debt obligations, which may include repurchases of our outstanding public notes and debentures, depending on various factors, such as market conditions.

Available Borrowings Under Credit Facilities

We traditionally maintain significant availability under our lines of credit and our commercial paper program to meet our short-term liquidity requirements. As of June 30, 2010, amounts available under all of our credit facilities totaled approximately \$6.4 billion.

Share Repurchases and Dividends

During the six months ended June 30, 2010, we repurchased 36.4 million shares of our Class A Special common stock under our share repurchase authorization for \$600 million. As of June 30, 2010, we had \$2.7 billion of availability remaining under our share repurchase authorization. We intend to complete repurchases under the current share repurchase authorization by the end of 2012, subject to market conditions.

In February, May and July 2010, our Board of Directors approved a quarterly dividend of \$0.0945 per share as part of our planned annual dividend of \$0.378 per share. We expect to continue to pay quarterly dividends, although each dividend is subject to approval by our Board of Directors.

Three months ended June 30, 2010	\$ 265	July

Dividends declared in July 2010 are expected to be paid in October 2010.

Critical Accounting Judgments and Estimates

The preparation of our condensed consolidated financial statements requires us to make estimates that affect the reported amounts of assets, liabilities, revenue and expenses, and the related disclosure of contingent assets and contingent liabilities. We base our judgments on our historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making estimates about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe our judgments and related estimates associated with the valuation and impairment testing of our cable franchise rights and the accounting for income taxes are critical in the preparation of our condensed consolidated financial statements.

For a full discussion of the accounting judgments and estimates that we have identified as critical in the preparation of our consolidated financial statements, please refer to our 2009 Annual Report on Form 10-K.

(c) Changes in Payroll Deductions. A Participant may discontinue Payroll Deductions during an Offering Period by providing a Termination Form to the Committee at any time before the Offering Termination Date applicable to any Offering. No other change can be made during an Offering, including, but not limited to, changes in the amount of Payroll Deductions for such Offering. A Participant may change the amount of Payroll Deductions for subsequent Offerings by giving written notice (or notice in another form pursuant to procedures established by the Committee) of such change to the Committee on or before the 15th day of the month immediately preceding the Offering Commencement Date for the Offering for which such change is effective.

6. Purchase of Shares.

(a) In General. On each Offering Termination Date, each Participant shall be deemed to have purchased a number of whole Shares equal to the quotient obtained by dividing the balance credited to the Participant's Account as of the Offering Termination Date, by the Purchase Price, rounded to the next lowest whole Share. Shares deemed purchased by a Participant under the Plan shall be credited to the Participant's Brokerage Account as soon as practicable following the Offering Termination Date.

(b) Terminating Events. The Company shall give Participants at least 30 days' notice (or, if not practicable, such shorter notice as may be reasonably practicable) prior to the anticipated date of the consummation of a Terminating Event. The 20th day following the issuance of such notice by the Company (or such earlier date as the Board or the Committee may reasonably determine) shall constitute the Offering Termination Date for any outstanding Offering.

(c) Fractional Shares and Minimum Number of Shares. Fractional Shares shall not be issued under the Plan. Amounts credited to an Account remaining after the application of such Account to the purchase of Shares under the Plan shall be credited to the Participant's Account for the next succeeding Offering, or, at the Participant's election, returned to the Participant as soon as practicable following the Offering Termination Date, without interest.

(d) Transferability of Rights to Purchase Shares. No right to purchase Shares pursuant to the Plan shall be transferable other than by will or by the laws of descent and distribution, and no such right to purchase Shares pursuant to the Plan shall be exercisable during the Participant's lifetime other than by the Participant.

7. Termination of Participation

(a) Account. Except as provided in Paragraph 7(c), no amounts shall be distributed from Participants' Accounts during an Offering Period.

(b) Suspension of Participation. A Participant may discontinue Payroll Deductions during an Offering Period by providing a Termination Form to the Committee at any time before the Offering Termination Date applicable to any Offering. All amounts credited to such Participant's Account shall be applied to the purchase of Shares pursuant to Paragraph 6. A Participant who discontinues Payroll Deductions during an Offering Period shall not be eligible to participate in the Offering next following the date on which the Participant delivers the Termination Form to the Committee.

(c) Termination of Employment. Upon termination of a Participant's employment for any reason, all amounts credited to such Participant's Account shall be returned to the Participant, or, following the Participant's death, to the Participant's Successor-in-Interest.

8. Interest

No interest shall be paid or allowed with respect to Payroll Deductions paid into the Plan or credited to any Participant's Account.

9. Shares.

(a) Maximum Number of Shares; Adjustments. Subject to adjustment as provided in this Paragraph 9, not more than 26,500,000 Shares in the aggregate may be issued pursuant to the Plan pursuant to Offerings under the Plan, including Offerings commenced since the Plan first became effective as the Comcast Corporation 2001 Employee Stock Purchase Plan. Shares delivered pursuant to the Plan may, at the Company's option, be either treasury Shares or Shares originally issued for such purpose. In the event that Shares are changed into or exchanged for a different number or kind of shares of stock or other securities of the Company, whether through merger, consolidation, reorganization, recapitalization, stock dividend, stock split-up or other substitution of securities of the Company, the Board or the Committee shall make appropriate equitable anti-dilution adjustments to the number and class of shares of stock available for issuance under the Plan, to the number and class of shares of stock subject to outstanding Offerings and to the Purchase Price. Any reference to the Purchase Price in the Plan and in any related documents shall be a reference to the Purchase Price as so adjusted. Any reference to the term "Shares" in the Plan and in any related documents shall be a reference to the appropriate number and class of shares of stock available for issuance under the Plan, as adjusted pursuant to this Paragraph 9. The Board's or the Committee's adjustment shall be effective and binding for all purposes of this Plan. All Shares issued pursuant to the Plan shall be validly issued, fully paid and nonassessable.

(b) Participant's Interest in Shares. A Participant shall have no interest in Shares offered under the Plan until Shares are credited to the Participant's Brokerage Account.

(c) Crediting of Shares to Brokerage Account. Shares purchased under the Plan shall be credited to the Participant's Brokerage Account as soon as practicable following the Offering Termination Date.

(d) Restrictions on Purchase. The Board or the Committee may, in its discretion, require as conditions to the purchase of any Shares under the Plan such conditions as it may deem necessary to assure that such purchase of Shares is in compliance with applicable securities laws.

10. Expenses.

The Participating Companies shall pay all fees and expenses incurred (excluding individual Federal, state, local or other taxes) in connection with the Plan. No charge or deduction for any such expenses will be made to a Participant upon the termination of his or her participation under the Plan or upon the distribution of certificates representing Shares purchased with his or her Payroll Deductions.

11. Taxes.

The Participating Companies shall have the right to withhold from each Participant's Compensation an amount equal to all federal, state, city or other taxes as the Participating Companies shall determine are required to be withheld by them in connection with the purchase of Shares under the Plan and in connection with the sale of Shares acquired under the Plan. In connection with such withholding, the Participating Companies may make any such arrangements as they may deem necessary or appropriate to protect their interests.

The Plan shall not confer upon any Eligible Employee any right to continue in the employ of the Participating Companies.

13. Administration.

The Plan shall be administered by the Committee. The Board and the Committee shall have authority to interpret the Plan, to prescribe, amend and rescind rules and regulations relating to it, and to make all other determinations deemed necessary or advisable in administering the Plan, with or without the advice of counsel. The Committee may delegate its administrative duties, subject to its review and supervision, to the appropriate officers and employees of the Company. The determinations of the Board and the Committee on the matters referred to in this Paragraph 13 shall be conclusive and binding.

14. Amendment and Termination.

The Board or the Committee may terminate the Plan at any time and may amend the Plan from time to time in any respect; provided, however, that upon any termination of the Plan, all Shares or Payroll Deductions (to the extent not yet applied to the purchase of Shares) under the Plan shall be distributed to the Participants, provided further, that no amendment to the Plan shall affect the right of any Participant to receive his or her proportionate interest in the Shares or his or her Payroll Deductions (to the extent not yet applied to the purchase of Shares) under the Plan, and provided further that the Company may seek shareholder approval of an amendment to the Plan if such approval is determined to be required by or advisable under the regulations of the Securities and Exchange Commission or the Internal Revenue Service, the rules of any stock exchange or system on which the Shares are listed or other applicable law or regulation.

15. Effective Date.

The original effective date of the Plan was December 20, 2000. This amendment and restatement of the Plan is effective on May 19, 2010, except as otherwise specifically provided in the Plan.

16. Government and Other Regulations.

(a) In General. The purchase of Shares under the Plan shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies as may be required.

(b) Securities Law. The Committee shall have the power to make each Offering under the Plan subject to such conditions as it deems necessary or appropriate to comply with the then-existing requirements of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, including Rule 16b-3 (or any similar rule) promulgated by the Securities and Exchange Commission thereunder.

17. Non-Alienation.

No Participant shall be permitted to assign, alienate, sell, transfer, pledge or otherwise encumber his right to purchase Shares under the Plan prior to time that Shares are credited to the Participant's Brokerage Account. Any attempt at assignment, alienation, sale, transfer, pledge or other encumbrance shall be void and of no effect.

20. Severability.

If any part of this Plan shall be determined to be invalid or void in any respect, such determination shall not affect, impair, invalidate or nullify the remaining provisions of this Plan which shall continue in full force and effect.
